

## CZ PO7 VERSION CONFIRMATION

Directions to determine the version of yours CZ P-07 and the use or not of the DPM Spring Plug.

How you can confirm what version ( 1 or 2 ) is your PO7 pistol.

Insert the DPM Recoil Rod into spring house hole from the front side.

If the bigger diameter of the DPM Recoil Rod stop in the hole, you have the version 1 and it is not allowed to use the spring plug . Fig 1 & 2

If the big diameter of the DPM Recoil Rod can inserted to the spring house hole ( Fig 3 ), then you always have to use the DPM Spring Plug ( Fig 4 ).

Install one of the external springs on the recoil rod and to the other end of the spring the spring plug and apply to the slide ( Fig 5 ) , according to the general installation instructions.
