

INSTALLATION INSTRUCTIONS BENELLI BM4

PARTS LIST

1. Buffer

2. Buffer cup

3. Cup screw

4. Allen tool

5. Buffer tube external springs

5.1 & 5.2 Wire diameter 1.1mm suggested for 24 to 28 grams

5.3 & 5.4 Wire diameter 1.25mm suggested for 28 to 40 grams

Tool: Assembling-disassembling

1. Insert one of the external springs in the buffer. **FIG 1**
 2. Place the cup (**FIG 2**) and screw completely the buffer cup screw using a drop of low strength glue. **FIG 3**
- ATTENTION!** Please be sure that the screw will not protrude from the buffer cup. **FIG 4**

3. Now the buffer is ready for installation.

4. Insert the main spring to the shotgun tube. In the end of the spring insert also the DPM buffer **FIG 5** and compress completely **FIG 6**. Use the Tool to push inside the DPM buffer until it passes through the second small hole and secure temporarily by using the allen tool. **FIG 7**

5. Screw the bolt to the shotgun tube by using the Tool and place also the safety omega ring according to the manufacturer's instructions. **FIG 8**

6. Attention! Remove the allen tool to release the DPM buffer and the main spring. **FIG 9**
Now you are ready to add the stock on your shotgun.
